Putting Clean Energy [Into Action](#)

The birth of a better energy future

As a global energy player, PETRONAS aspires to achieve net zero carbon emissions by 2050, delivering cleaner energy and lower carbon solutions to people globally.

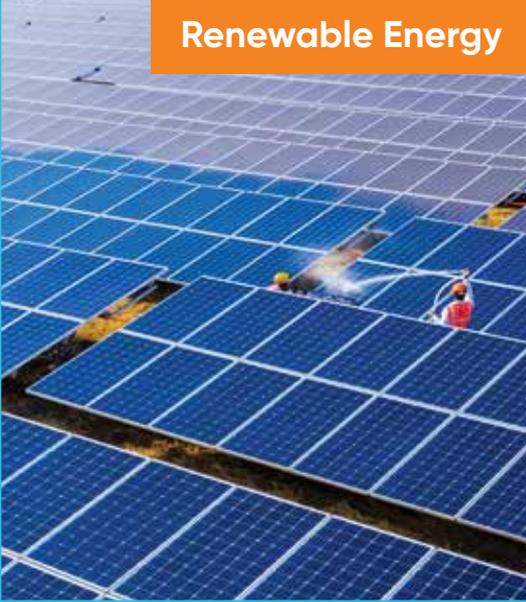

At Gentari, we aim to **solve the world's most pressing sustainable energy needs**, to change how we live today and help to secure our future.

Gentari is a clean energy company focused on **delivering integrated net zero solutions** required to put cleaner energy into action today, to transform how we live tomorrow.

Gentari offers lower carbon solutions through three initial core portfolios

Renewable Energy

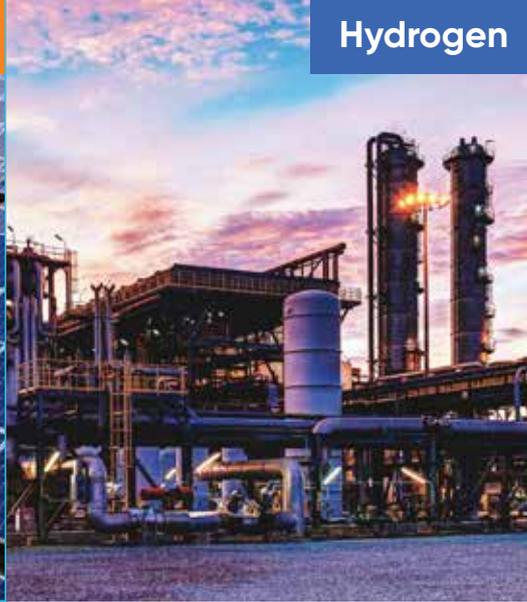

Leading Next Generation Utility-Scale Developer, Accelerating Sustainable Renewable Energy Adoption

30 – 40 GW

- Grow Commercial & Industrial (C&I) projects in Asia Pacific
- Grow Utility-Scale solar and wind in Malaysia and Asia Pacific to support green hydrogen aspiration
- Embark on offshore wind within Asia Pacific and the European Union
- Develop round-the-clock energy storage capability

Hydrogen

Scale Clean Hydrogen Producer and Go-to Industry Partner in Enabling Decarbonisation

Up to 1,200,000 tonnes per annum of clean H2

- Develop clean hydrogen projects in Malaysia, Canada and other competitive geographies
- Provide solutions for customers in Asia Pacific and other key markets
- Expand global footprint through partnerships
- Venture across hydrogen value chain through technology

Green Mobility

Preferred Green Mobility Solutions Provider, Driving Sustainable Transportation

10% market share
(circa 25,000 charging points) across key markets in Asia Pacific

- Expand charging points across Asia Pacific for sustainable transportation
- Establish position as Vehicle-as-a-Service (VaaS) fleet in Malaysia, India and Asia Pacific to drive sustainable mobility switch and adoption
- Grow value-added services for customers namely retail, advertising, digital platforms and others

Moving for a better energy future

Integrated clean energy solutions portfolio championing Renewable Energy, Hydrogen and Green Mobility.

Industry partnerships to deliver clean energy solutions at scale.

Investing in capabilities and technologies to deploy transformative innovations in clean energy.
